

Perelandra Microbial Balancing Program Chart—Phase 1 Testing

Subject: _____ Date: _____

1. Devas of the MBP, Viruses, Fungi, Bacteria, Protozoa, Healing, plus Pan, the WB connection and your h.s. (Test essences. No dosage.)
2. Identify/describe issue: **Phase 1/General Balancing**

3. Intent: "I request that the coning focus be directed to all VFBP that impact, are related to or are connected with the above-stated condition or issue."

4. "Do these microbes need balancing?" yes no

5. Microbes being tested: Viruses Fungi Bacteria Protozoa Other Tested as a unit Tested & treated separately

6. Troubleshooting List (Only one process will test positive.)

___ Energy Cleansing Process

Bal: _____

Stab: _____

___ Battle Energy Release Process

Bal: _____

Stab: _____

___ Balancing and Stabilizing Process

___ Specific microbes:

Bal: _____

Stab: _____

___ Microbes' relationship to body environment:

Bal: _____

Stab: _____

___ Atmospheric Balancing Process

Bal: _____

Stab: _____

___ Essences Process Oral Soak with solution (Amount of time needed: _____) Topical NS application

___ General Solution:

Sol: _____

~~Dosage: _____~~

___ ~~Solution for specific problem:~~

Sol: _____

~~Dosage: _____~~

___ Microbial Triangulation Process 1) point link 2) point link 3) point link

Bal: _____

Stab: _____

___ Calibration Process

Bal: _____

Stab: _____

___ Geopathic Zone Balancing Process

EC Bal: _____

Stab: _____

BER Bal: _____

Stab: _____

B/S Bal: _____

Stab: _____

___ Genetic Balancing Process

Bal: _____

Stab: _____

___ Factor-X

___ Factor-Y

___ Factor-Z

Bal: _____ Bal: _____ Bal: _____

Stab: _____ Stab: _____ Stab: _____

7. Personal solution needed as a result of the microbial work yes no

Sol: _____

~~Dosage: _____~~

8. ~~Troubleshooting recheck date:~~ _____

9. Close coning. Test essences. Sol: _____ Dosage: _____
