ETS Plus for Atmosphere
~ and ~
ETS Plus for Water

ETS Plus for Atmosphere and ETS Plus for Water are for use by those who are working with *The Perelandra Garden Workbook* (2013 edition). These two Solutions can't be used on their own.

ETS Plus for Atmosphere and ETS Plus for Water offer all-purpose repair and balancing. They also address climate change impact and damage. Because these Solutions address a complex environmental mosaic, they must be tested along with the other Solutions in your Co-Creative Gardener's Kit.

Machaelle strongly recommends that ETS Plus for Atmosphere and ETS Plus for Water be included when testing the processes in *The Perelandra Garden Workbook*. These Solutions are now part of the ETS Plus Garden Collection and The Co-Creative Gardener's Kit because they are integral to the *Workbook* processes. You will appreciate what they add to your environmental balancing.

Let's head into the *Workbook* Classroom . . .

This is where your *Garden Workbook* really begins to feel like a WORKBOOK! We'll wait here while you go and get your book, and a pen or pencil. Trust us, do it now, so when it comes time to work with the processes, you won't waste time searching for this card.

Okay, do you have your *Workbook* out? Handwrite the words "ETS/Water" and "ETS/Atmosphere" where you find lists of Solutions within the instructions on the following pages:

- Co-Creative Gardener's Kit, p. 86
- Using ETS and EoP for Obstacles, p. 87 (Step 1)
- Co-Creative Gardener's Kit 2.0, p. 103
- Energy Cleansing Process, p. 268 (To Prepare)
- Energy Cleansing Process Steps, p. 270 (Step 8)
- Battle Energy Release Process, p. 281 (To Prepare)

- Battle Energy Release Process Steps, pp. 282–283 (Step 6)
- Troubleshooting 2.1 Process, p. 297 (To Prepare)
- Troubleshooting 2.1 Chart Sample, p. 299 (Nature Shift)
- Troubleshooting 2.1 Chart, p. 301 (Nature Shift)
- Nature Shift for General Garden Use, p. 303 (Step 2)
- Energy Cleansing Process, p. 307 (To Prepare)
- Energy Cleansing Process Steps, pp. 309–310 (Step 8)
- Battle Energy Release Process, p. 312 (To Prepare)
- Battle Energy Release Process Steps, p. 314 (Step 6)

Release each of these Solutions from its own clean glass bowl as described for any Nature Shift.

Is your *Perelandra Garden Workbook* an e-book?

Go to the Perelandra website and download the PDF of this card now. Here's the direct link:

http://www.perelandra-ltd.com/pdf/ETS-Water-Atmosphere_Card.pdf

Save the PDF on your computer where your *Workbook* e-book is located. Then you will be able to flip to the information easily when you are working with your e-book. If you have a PDF reader program that allows for highlights or notes, you can add "ETS/Water" and "ETS/Atmosphere" as a note on each of the pages listed above.

These Solutions have been created by Machaelle and nature from a combination of electrical infusions from different plants, minerals, natural gases and elements found in the sea, atmosphere and on land. They each contain water, a specific electrical pattern and a preservative (brandy).

Should the dropper touch your hand or anything else (outside the bottle!), wash the dropper well before placing it back in the bottle.
