New Book!

BY MACHAELLE WRIGHT

PIVOT A Memoir

A new,
very big
book from
Machaelle
Wright!

This is a beautiful memoir. Certainly one of a kind. It inspires me to continue to allow life to unfold and surprise me. It makes me think more about what I need to be doing to carve my own way. — Maggie Neiss, South Chester, PA

From Jeannette and Beth, the QL Duo:

We were lucky enough to be among the first who read *Pivot*. It opened our minds and hearts to a better understanding and appreciation of our lives, our world and the universe beyond.

We have worked at Perelandra for over 25 years, and have read all of Machaelle's books multiple times. Still, we found this book riveting and new. Whether you've also read them all or haven't read any yet, you'll find *Pivot* to be an experience unlike any other.

Machaelle takes us on a deeply personal and insightful journey from her beginnings through to what she's doing and thinking now, over 70 years later and after having founded Perelandra nearly 40 years ago. She looks ahead to her pivot-woven future, and reveals what's in store for her, and for Perelandra.

If you've been looking back and thinking about your life lived so far, *Pivot* will give you a fresh perspective, a way to find new meaning and understanding in your

own journey. As you look ahead to life in front of you, *Pivot* will inspire you to make the most of your adventures, opportunities and choices. It's more than a memoir about an extraordinary life. *Pivot* is about life at its largest, and what can happen when we recognize the unique possibilities before us, and each live our own life at its largest.

With this memoir, Machaelle pulls back the curtain, giving a unique look behind the scenes of an expanded view of the bigger picture. — Emily Dobson, Decorah, IA

Think you know what “pivot” means?

Think again! A pivot occurs when a person who has been traveling on a familiar, well-defined life path makes a sudden voluntary or involuntary turn that untethers the individual from that path and propels him or her onto a new and often unrelated path that uproots the individual from his or her previous world.

This book is about having the courage and confidence to meet life on its own terms. — Michael T., Canton, OH

When we say “very big” book, we aren't kidding around. It's a rather thick, 848 page, 6x9 inch softcover book. It's as rich and inspiring as it is hefty. (2018. Quality paperback. 848 pp.)

PERELANDRA SOLUTIONS

New! BACTERIA SOLUTION & VIRUS SOLUTION

Climate change has changed the world's health. The global microbial population is adjusting, migrating to new areas and causing new, more difficult problems for humans. Unfamiliar microbial patterns are flying around the globe, modifying rapidly. *We're in a new world.*

Machaelle and nature answered the challenge with this extraordinary development. The Perelandra Virus and Bacteria Solutions offer broad support for health in this new world by providing targeted monitoring to disrupt and eliminate "microbial misbehavior."

To address the full onslaught and uptick of out-of-control microbial activity, and a range of issues that science is beginning to attribute to microbes, a dose of each of these two Solutions should be taken daily. A comprehensive replacement to the old Seasonal Balancing Solution, it's best to take both Bacteria *and* Virus Solution. These two Solutions offer a broader range of support to address more than "seasonal" issues. They are most helpful when taken year-round.

NATURAL AGING

The Natural Aging Solution connects us to the developmental and maturation process we move through for each of life's six aging stages. In this way we can embrace the experiences and opportunity each stage offers. When we move to the next stage, we have a strong foundation upon which to build.

ESSENCE OF PERELANDRA (EoP)

Essence of Perelandra provides a unique balance that adds strength, stability and support for humans, animals, environments and projects.

We call EoP "balance in a bottle." Use Essence of Perelandra anytime and anywhere. The dose: 10 drops. You may take 10 drops of EoP orally to add balance, stability,

strength and support for your overall health and well-being. Or you may give 10 drops to your child or infant, or to your pet. You may also use EoP "non-orally" and provide 10 drops to your job, work-related tasks and any project or soil-less garden. You may add EoP to your home, garden or farm to give it additional balance, stability, strength and support. Always use 10 drops for each dose no matter how you wish to use EoP. It couldn't be easier!

1/2-oz. bottle (Approx. 30 doses): \$11

EOP INFUSION PUMP

Machaelle has been working with nature for decades to establish environmental balance and strength in her garden.

Essence of Perelandra (EoP) contains the unique electric pattern derived from the Perelandra garden biosphere.

The Pump provides a gentle, continuous infusion of this stabilizing, strengthening and balancing energy experienced in the

Perelandra garden. When you carry the Infusion Pump in your pocket, the EoP energy permeates through the glass bottle and into your body's environment on all its levels.

It's helpful if you're having health, financial, relationship or employment problems, and when you're traveling. Keep it in your pocket if you work in a "sick environment" or are around sick people. And if simply facing life each day feels more than you want to handle, the Pump is for you, too.

Note: The Pump does not replace the need for the stronger, direct impact EoP provides when taking the drops orally.

Dram-size (1/8-oz.) bottle: \$8.50

Taken daily, most of the Perelandra Solutions in 2-oz. bottles will last about 2 to 4 months. Also, this catalog introduces the basics. We offer much more online, including refill bottles and discounted combinations.

PERELANDRA SOLUTIONS

All of the Solutions are safe and natural, and couldn't be easier to use. Just put the correct number of drops into your mouth. Instructional information is included with first time orders.

BEGINNER'S 3-BOTTLE COMBO

EMERGENCY SOLUTIONS (ETS)

ETS FOR HUMANS

Perelandra's ETS for Humans is the perfect solution that fits everyone's needs for any sudden or "unscheduled" physical, emotional or mental situation that can be large or small, serious or passing. It's for all those events that can occur throughout our day that we don't plan for, would have appreciated not happening, and that cause anger, frustration, confusion, pain, panic, irritation and fear. When these kinds of "intrusions" occur, we immediately reach for and take ETS for Humans. It is convenient and easy to take during those times when we aren't able to think straight. Once we stabilize ourselves with ETS, we are better able to intelligently and calmly turn our attention to what else we need to do to address what has just occurred.

2-oz. bottle (Approx. 100 doses): \$25

1/2-oz. bottle (Approx. 25 doses): \$11

ETS FOR ANIMALS

This Solution is for animals—furred, feathered and scaled. It is perfect for any sudden or "unscheduled" situation, large or small, serious or passing. It can be used for any animal, any time they get "rattled" and thrown off balance, including those thunderstorm freak-outs and other times your animal panics or experiences anxiety or fear such as travel, sitters, vet visits, new animal or person in the home, etc.

2-oz. bottle (Approx. 100 doses): \$25

1/2-oz. bottle (Approx. 25 doses): \$11

ETS FOR SOIL-LESS GARDENS

ETS for Soil-less Gardens was specially created to address the balance and strength of all the elements that make up a soil-less garden. By using the ETS for Soil-less Gardens to monitor, repair and maintain balance, clarity and strength, our personal and professional projects will function better, and with greater clarity and ease.

2-oz. bottle (Approx. 100 doses): \$25

The Perelandra Information Center or "PIC" is your personalized resource for better understanding of the Perelandra bottled products.

See p. 8 to learn more.

ETS FOR PLANTS

ETS for Plants has been specially created by nature for family gardens, house and atrium plants, forests, truck gardens, patio plants, landscape plants, trees, shrubs, pond and dune plants . . . Anything that falls within the category of plants. This ETS can be used as part of a plant's general balancing, as well as for those times when a plant experiences stress from weather extremes or pollution, and serious insect infestation or disease.

2-oz. bottle (Approx. 80 doses): \$25

ETS FOR SOIL

Soil is an important element in all our lives. We walk on it, sit on it, build on it, move it around, plant in it, mow over it, put highways over it, create ponds and lakes in it . . . It's the foundation of our planet and the underlying support for everything we do—both *in* and *on* soil. ETS for Soil is for those working with any soil, as well as for those working with soil-less gardens and projects.

2-oz. bottle (Approx. 80 doses): \$25

ETS FOR WATER & ETS FOR ATMOSPHERE

These two Solutions are for those who are caring for the environment using *The Perelandra Garden Workbook* (see p. 1). ETS for Atmosphere and ETS for Water offer all-purpose repair and balancing. They also address climate change impact and damage. Because these Solutions address a complex environmental mosaic, they must be tested along with the other Solutions in your Co-Creative Gardener's Kit. They are integral to the *Workbook* processes and you will appreciate what they add to your environmental balancing.

THE PERELANDRA ESSENCES

The Perelandra Essences are oral solutions taken to balance and stabilize the body's electric system and its circuits. They also are taken for maintaining the overall strength and balance of the electric system.

THE PERELANDRA ESSENCES

There are five different sets of Perelandra Essences that work in combination with one another and cover the full range of what's needed to balance and stabilize an electric system: Rose, Garden, Rose II, Soul Ray and Nature Program. Each set is produced from electrical patterns derived from the Perelandra garden and the nature kingdoms that are part of Perelandra's seventy-seven acres. The electrical patterns contained in each bottle are set in a water-based solution that is preserved with brandy or white vinegar for safety and longevity. The pattern held in each bottle addresses different circuitry in your electric system and different kinds of circuit imbalances.

The Essences are bottled in concentrate form in pharmaceutical dropper bottles that make it easy for you to place one drop of a needed Essence on your tongue or several drops of the Essence in a glass of water to be sipped throughout the day. Because they are used one drop at a time and because they are well-preserved, each bottle has an indefinite shelf-life. You'll be keeping and using these sets for many years.

BOOK: *The Perelandra Essences*

This book is your "owner's manual" for the Perelandra Essences (*see p.1*) and includes all the information you'll need for using the Essences for any situation. It also has expanded information for using ETS with the Essences.

WHICH ESSENCES TO PURCHASE FIRST

If you are interested in the Perelandra Essences but, after reading the additional information on our website, you are still confused about how to start and what's best for you, please don't hesitate to call our Order Line or our Question Hot Line. Let us help you get started.

PERELANDRA BOTTLE BUYERS CLUB

I am pleased to introduce something that I think you are going to love. File this under “Times they are a’ changin’.” When I introduced PIC, a unique, comprehensive, personalized approach for using the Perelandra bottled products (see p. 8), how the bottled products are used took a major leap forward. We soon began to get reports of people experiencing amazing successes. As word got around, new people jumped on the PIC bandwagon every day. But PIC completely changed how you folks are purchasing our Essences and Solutions. And we noticed that our original setup for selling the bottled products was no longer working well—for you or for us. So we decided to throw out the original sales approach and come up with something completely different.

I think it will fit nicely with those of you who work with the Perelandra Essences, MBP Balancing Solutions, ETS, Virus, Bacteria, and any other Perelandra Solutions daily, or frequently, and need to replenish your stock with replacement bottles. I’m pleased to offer:

The Bottle Buyers Club

Now instead of waiting for the bottles you need to go on sale and then putting out extra money to purchase multiple bottles because you don’t know when the next sale will come around, you can join the Bottle Buyers Club. This allows you to purchase any individual bottles you need (some of them free!) when you need them, 24/7, 365 days a year. And to boot, the Bottle Buyers Club also includes a special break on your bottle shipping costs!

- \$15 off international shipping for orders that include bottled products
- A welcome gift worth over \$25

By becoming a club member, you can always save on the Solutions or Essences you need, when you need them.

HOW IT WORKS

Annual membership is \$90. After becoming a member, you may begin requesting your free bottles with any qualifying orders. When ordering online, customers in the U.S. will see the “Bottle Buyers Club: Free U.S. Shipping” option during checkout. And international customers will enter a special coupon code for your \$15 shipping discount.

We’ll send reminder emails prior to your membership renewal date, but you won’t need to do anything. If you wish to continue saving, your subscription will renew automatically, and you’ll receive an email to let you know you’re part of the Club for another year.

Celebrating the Power of the Individual

by Machaelle Wright
Founder of Perelandra

PERELANDRA CELEBRATES the power of the individual. Everything we offer is geared to the individual and his or her quest to live in balanced and environmentally friendly ways in three main areas: environment, health and soil-less gardens (a business, home, special projects, the creative arts—all “gardens” that do not grow in soil).

At Perelandra we increase the power of the individual tenfold by including an element that is guaranteed to provide balance in all areas of our lives: nature intelligence. The current global crisis is an excellent demonstration of what we humans don't know about interfacing with nature's planet and about balance as it relates to every aspect of our lives and health. Well, here's an interesting idea: How about allowing nature—the intelligence inherent in that nature—to join us in equal partnership to give us the input we need to make new decisions and live in new ways that have a strong, positive impact on our lives and our health as well as the planet?

Sometimes it is difficult to understand the power of one person living in a world of billions of others. Here's a little exercise to help. Take a moment to think about the breadth and depth of the environmental disasters we face today. Think about the air pollution and the health effects we experience when we breathe that air. Think about the serious water issues we face: the pollution, the scarcity, the looming wars over water. Think about the deteriorating soil quality, the dying oceans, the endangered wildlife, the increasing occurrences of wild fires that each year are more severe than the last. And think about the critical issue of global warming and its ramifications for everyone and everything around the world.

Now think about this: Every one of these problems has been created by us humans over a relatively short period of time. By “us” I don't mean large groups or global populations acting in concert. These disasters have been created by individuals acting independently. By “us” I am referring to you, me, our spouses, each of our children, our grandfathers, our grandmothers, our cousins... Our current crises were created by each of us acting independently and establishing a personal and professional lifestyle that was environmentally deaf, dumb and blind.

The needed coordination between governments and industry to turn these crises around will never succeed if we as individuals don't join in the efforts. If the same number of individuals who created the problem focused on what they need to do on the personal level to live an environmentally conscious life, we could turn the global problems around in an amazingly short time. I believe in the power of the individual and I believe in the importance of our acting responsibly as individuals without waiting for the right leader or group. In actuality, it's the power of the individual that leads the way.

Now imagine what we individuals could accomplish if we teamed up with the greatest authority in the field of balance—nature—to help us personally to make the best decisions for improving our lives and our planet. Imagine what it would be like if individual scientists not only made discoveries that could unravel the environmental mess we have created but also made new discoveries that didn't add to or perpetuate the problems.

Perelandra is all about giving you the information and tools for creating just such a partnership for addressing every aspect of your life and work. In his

2007 speech on the acceptance of the Nobel Peace Prize, Al Gore said: “It is time to make peace with the planet.” To this I add,

It is time to make peace with nature.

While we're talking about celebrating, Perelandra has been in business since 1981. Decades of growth, change and reaching out to a lot of folks in the U.S. and around the world who like what we have to offer. You folks have made our years possible, and it's hearing about how the different Perelandra tools have improved your health, your environment and your life that make being here at Perelandra so rewarding. So I thank you for your interest and your support.

*With best wishes,
